## SUPPLEMENTAL DECLARATION FOR UTILITY PATENT APPLICATION AND POWER OF ATTORNEY

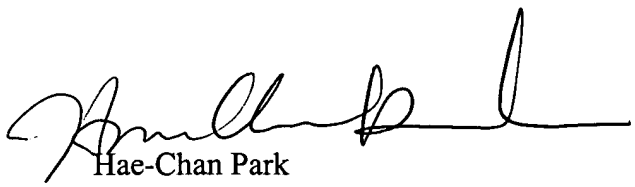

Sir:

Applicants recently found errors in the combined declaration and power of attorney filed on March 26, 2002. Particularly, the declaration incorrectly indicates that the prior foreign application 2000-32506 was filed in Korea on June 13, 2001 although it was filed on June 13, 2000. Also, the power of attorney appears to be missing pages 17-18.

To correct this errors, attached hereto are (a) newly executed Declaration with the corrected priority date and (b) a copy of the entire Power of Attorney filed during the examination of the prior Application Serial No. 09/879,119.

Please charge any deficiencies and credit any overpayment to our Deposit Account No. 23-1951.

Respectfully submitted,

Hae-Chan Park
Reg. No. 50,114

---

**37, Code of Federal Regulations, § 1.56**

(a) *A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the teachings of all information material to patentability. Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith toward the Patent and Trademark Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to each pending claim until the claim is canceled or withdrawn from consideration, or the application becomes abandoned.

(b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and (1) it establishes , by itself or in combination with other information, a prima facie case of unpatentability; or (2) it refutes, or is inconsistent with, a position the applicant takes in: (i) opposing an argument of unpatentability relied on by the Office, or (ii) asserting an argument of patentability.
